

029: Pegs 20

Develop creativity forming colour mosaics

Starting Session

Print out the sheet and create the model you want to work on in the classroom (series of shapes and/or colours, letters, numbers, geometric figures, etc.). Afterwards, you can organise a session of creativity to select the sheet you like the most.

Miniland Product Game

Place the personalised sheet in the Miniland Pegs 20 game and create the model in question with the help of the same.

Digital Game

When finished, play the digital game to reinforce content. The game consists of choosing the colour of the pieces and dragging them to the board to form different compositions.
