

018 Counting vehicles

Associating written numbers with amounts and colours, counting vehicles

Starting Session

Hand out the Miniland Minimobil vehicles and look for differences among them. Work on the colours red, blue, yellow and green. Introduce the written form of the numbers 1 to 9.

Miniland Product Game

Print out the colour sheets and classify the vehicles in accordance with their colour (red, blue, yellow and green). Once the vehicles have been classified you count how many of each colour you have.

Digital Game

When finished, play the digital game to reinforce content. The aim of the game is to choose as many vehicles as the number indicates, but only those which are the same colour as the number which appears on the screen.

Educational content

Mathematics

- Counting from 1 to 9.
- Use of cardinal numbers in relation to amounts.
- Colours: identification and differentiation.
- Establishing grouping, classification and quantification relations.
- Mathematical skills.

Language

- Vocabulary.

ICT

Use of a digital environment.
