

022 Learning to Build 1

Building models following the correct order

Starting Session

Print out the sheet of the model to be built beforehand. Hand out the Miniland product to get familiar with the pieces and observe the different shapes and colours there are. Develop spatial relations with the help of the pieces.

Miniland Product Game

The digital game helps children follow the order of construction. The game consists of building the model in question. Drag the pieces to the correct place until the model is complete. Remember to start building from the base of the construction.

Digital Game

Build the model in question with the help of the sheet and using the Super blocks. Building with blocks helps stimulate the concentration and spatial perception.

Educational content

Mathematics

- Logical-mathematical skills.
- Identifying colours.
- Spatial notions.

Artistic Expression

- Vocabulary.
- Creative and constructive thinking.

Language

- Vocabulary.

ICT

Use of a digital environment.
