

040 Who lives in the woods?

Identifying and classifying animals in accordance with their habitat

Starting Session

Hand out the Miniland animals. Ask the children the names of the animals and if they know when each of them lives. Print out and show the woods sheet with the animals already in place and ask about them.

Miniland Product Game

Pick up a Miniland animal in turns and ask where it lives. Look for and place the animals which live in the woods on the sheet with no animals (sheets printed out beforehand). Work on vocabulary related to the woods. You can also work on the 4 habitats (jungle, sea, farm, woods) simultaneously.

Digital Game

When you have finished, play the digital game to reinforce the content. The game consists of dragging the animals which live in the woods to the top of the screen. There are 6 correct animals and 3 intruders.

Educational content

Language

- Vocabulary related to forest.
- Learn the rules that govern the dialogues.

Natural Sciences

- Classifying animals in accordance with habitat: the woods.

Mathematics

- Counting
- Spatial notions: up and down
